

Reception – Summer 2

<p>Science</p> 	<p>Can you go on a minibeast hunt in your garden or a local park? Look for different types of minibeasts and observe their behaviour. Draw pictures of the minibeasts you find and talk about what they are doing.</p>
<p>Technology</p> 	<p>Think of a new gadget that could help people (e.g. a robot that cleans your room). Draw a picture of your gadget and explain how it works. Can you use recycled materials to build a model of your invention?</p>
<p>Engineering</p> 	<p>Use sheets of paper and tape to build the tallest tower you can. Experiment with different shapes and structures to see which ones are the strongest. How tall is your tower?</p>
<p>Arts</p> 	<p>Go on a nature walk and collect leaves, flowers, and small twigs. Glue the items onto a piece of paper to create a beautiful nature collage. What can you create?</p>
<p>Maths</p> 	<p>Can you practice doubling with items you find in your house? Use small objects like toy cars, teddies or pencils. Count out a small number of objects and then double it by adding the same amount again.</p>

Children in Reception can bring any STEAM Challenge work they complete into school or upload it to Tapestry.
